

Serial No.: 10/635,126
Atty. Dkt.: ZM466/03003
Title: Electrical Rough-In Box
For Low Voltage Transformer

REMARKS

Reconsideration of the above referenced application is hereby requested. Claims 1-6 and 13 remain pending in the present application.

Applicant's Attorney appreciates the personal interview the Examiner provided in discussing the above referenced application. As a result of the interview, Applicant has amended the pending Claims 1-6 to more clearly define the Electrical Rough-In Box of the present invention. Applicant's Attorney does not feel that the here enclosed amendment unnecessary limits the claims nor equivalents thereof and merely more accurately represents the claimed invention.

Applicant has also filed new Claim 13 to more clearly define the claimed subject matter per the terms of our discussions in the interview.

As discussed in the interview, Applicant's Attorney does not feel that the relied upon references in the prior office action directly relate to the above claimed invention and feels that the present application is currently in condition for allowance. Applicant's Attorney therefore respectfully request a Notice of Allowance be issued in the present case. However, if the Examiner feels that further discussions are necessary in order to issue a Notice of Allowance, Applicant's Attorney would appreciate a collect call to discuss such matters.

Respectfully submitted,

Date: 8/19/04
